

INTEGRATED QUALITY AND ENVIRONMENT POLICY

Al Zaini Converting Industries involved in manufacturing and supply of plastic and paper products for packing solutions, digital printing for marketing and branding in Qatar. Al Zaini is committed to bring innovative approaches to product realization with high quality standards and good workmanship to comply with the expectations of our customers to their total satisfaction. Our strategic vision is to continue to be a pioneer, offering an unmatched level of service and became one of the country's industry leaders.

We determined to do this by;

- Ensuring customer satisfaction by delivering products on agreed specifications and maintaining reliability in our promised delivery time
- Ensuring always hassle free services to customers and accommodating their needs at all stages.
- Promoting proactive attitude towards quality by considering quality matters in all business and decision making process.
- Empowering the employees and involving them in all levels of quality management.
- Developing quality awareness and skills through training and motivating employees.
- Maintaining customer and employee friendly atmosphere within the company.
- Complying with all legal requirements related to the services and legal obligations related to the identified environmental aspects.
- Preventing pollution, optimize the resource consumption and minimize the wastage of resources
- Improving continually the performance and effectiveness of our integrated management system

The management of Al Zaini Converting Industries requests all employees to be aware about its policy and contribute their skills and talents to maintain and improve the management systems by adopting the commitment of the organization for quality and environment.
